

oEqual® Automated Hiring Solution

Ensure equal opportunity for all your candidates with oEqual Automated Hiring and Analytics

2020 will go down as a hard year for everyone. The effects of Covid-19 and the Social Justice movements have permanently changed the way businesses communicate with their employees, or potential employees.

Introducing the Citizen360 oEqual Automated Hiring Solution.

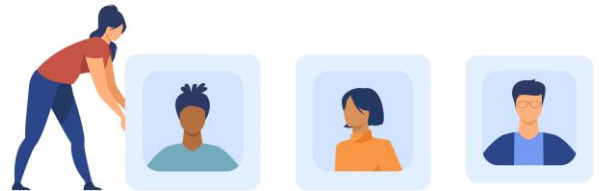

The Citizen360 oEqual Automated Hiring Solution allows you to fairly screen, interview, and short list the right candidates all remotely by leveraging automated and data driven remote technologies to manage the hiring process. Ensure equal opportunity and remove hiring bias from your process with repeatable, data driven hiring processes and introspective analytics to eradicate bias.

oEqual Recruiting Workflow Management

Customize and automate the recruiting workflow process to quickly make it to your short list. Score and track all candidates going through your hiring process in a fair and neutral way. From setting up a resume screening criteria; managing application review(s); automating candidate questionnaires; scheduling 1st round Anytime Interviews® and final virtual interviews, with visualizations to show individual candidate scores while watching every step of the process on the Recruiting Track Dashboard.

The pre-recorded script and questions ensures that every candidate receives an identical and equal process.

oEqual Automated Appointment Scheduling

Instead of wasting time with back and forth communication to schedule an appointment, when you pass a candidate to the next step an auto-generated email will invite them to schedule an appointment. Your team will input their available times and the candidate will log in and select a matching time which works for them.

oEqual Automated Candidate Screening

Set up a list of key words and criteria to screen each resume with an unbiased view. Established mandatory and desired candidate qualifications for initial screening and scoring. Provide follow up interview questionnaire that your candidate can answer remotely as time allows.

oEqual Anytime Interviews®

Anytime Interviews® leverage a defined script to ask pre-recorded questions and allows the candidate to start the interview at their convenience, but requires the candidate to record immediate responses to questions. Choose if you want your candidates to provide video or audio responses. This allows the candidate to complete the interview on their own time and your staff to review and score the interview responses on their time.

oEqual Analytics

The automated interview process creates an objective data driven scoring system for resume review and screening, questionnaire responses and interview answers. Leveraging these quantitative scores, you view dashboards and analytics detecting bias in your process amongst protected classes.

oEqual® Automated Hiring Solution

What You Receive:

oEqual brings you automated recruiting ensuring equality of opportunity while simultaneously reducing your level of effort throughout the process. Each of the five products in the suite can be used individually or in conjunction with all other products.
